Pit bull stolen from animal shelter

Second incident in the last month

RED BLUFF » An unknown person broke into Tehama County Animal Care Center sometime between 7 p.m. Tuesday and 7:30 a.m. Wednesday and stole a dog. An employee doing morning animal checks discovered a black and white male pit bull mix was taken from the kennel. Animal Care Center Manager Christine McClintock said the suspect scaled the cinder block wall that surrounds the dog kennels and was able to break through the chain link gate that separates the animals from the yard by hammering and shaking the latch loose. The incident was reported to the Tehama County Sheriff's Office. The suspect is still at large and the dog remains missing. A similar incident happened in January when another break-in resulted in a stolen dog. The dog was also a black and white pit bull. "This had only happened once in the five years I've worked here so it's strange that it happened twice within two months," McClintock said.
